Impact on Financial Aid: Scholarships are considered resource funds under state and federal guidelines, therefore scholarship awards become part of a student's financial aid package. Scholarships are first used to cover the student's unmet need. Gift aid "grants" will be reduced only if the total of all awards exceeds the amount of financial aid for which the student is eligible. In no case will the Pell Grant be reduced as a result of a scholarship. Additional documentation pertaining to the applicant's income may be requested. If additional income verification is requested, it must be provided before the applicant will be considered for an award.

Please briefly share your academic and career goals and how receiving the Acord Scholarship would assist you in these efforts.
